

# JSTOR: the scholarly journal archive

*Find it at:* [www.lib.monash.edu.au/databases/](http://www.lib.monash.edu.au/databases/)

## *JSTOR contains:*

- full text of over 600 scholarly journals in a wide variety of disciplines spanning arts, sciences, health, general and biological sciences
- the complete, digitised back runs of core scholarly journals as they were originally designed, printed and illustrated, from first issues to those dating back as far as the 1600s.

## *Use JSTOR to find:*

- full text journal articles from a wide range of subject areas including anthropology, art and art history, business and economics, botany and ecology, education, history, language and literature, law, mathematics, music, philosophy, political science, sociology, statistics, etc.
- lists of journals in a particular discipline
- editorials and reviews contained in journals
- archival material rather than current issues of journals.

## *Tips:*

- **Advanced Search** defaults to a 'full text' search. For a faster search change this using the drop down window to search the **abstract** only.
- Use quotation marks to search for a phrase: "berlin wall".
- Use truncation and wildcards: german\* finds germany, germans, germanic, etc. Civili?ation finds civilisation or civilization.
- Use **Article Locator** to search for a particular journal article.
- Narrow your search to a document type, date range or discipline.
- Browse journals by discipline or alphabetically by clicking **Browse** from top of screen.
- Print the full text of the article by clicking the **Print** link below the citation, or display the article first, then click **Print**.

## *Look for similar information in:*

- IBSS
- Project Muse
- Sociological Abstracts
- Web of Knowledge.

## JSTOR looks like this:
