

FinAnalysis

Find it at: www.lib.monash.edu.au/databases/

FinAnalysis contains:

- detailed financial profiles of companies listed on the Australian Securities Exchange (ASX)
- 12 years of financial history for each company
- 400 financial data items
- share price data, updated daily
- updated archives of annual reports and announcements to the ASX.

Use FinAnalysis to find:

- profit and loss, balance sheet and cashflow data
- revenue and expense data
- financial ratios
- historic share prices and volumes, and market capitalisation
- dividend payment histories
- extract data and create lists and spreadsheets according to parameters you specify.

Tips:

When looking at a Company Profile

- for historical share prices, select **Charts and Prices**, then **Price History**.
- to compare the performance of different companies, select **Peer Analysis**.
- for current and forecast data for industrial sectors, select **Sector Analysis**.
- to create a customised list or spreadsheet, select **Search Tool**.
- for a complete list of the data items in FinAnalysis, select **Search Items**.
- for item definitions, click on the name of the item, or select **Glossary**.

Look for similar information in:

- DatAnalysis- the sister database to FinAnalysis
- Connect4 databases
- See the Companies & Industries database menu at:
www.lib.monash.edu.au/databases/companies_&_industries.html
